BEST PET REHAB
INTEGRATIVE PET CARE

►► A resistance swimming pool, underwater and land treadmills, and a therapy gym with the same flooring as that found in the Chicago Bears' weight room? That is just a sample of the therapeutic equipment you'll find at Integrative Pet Care, a rehab and wellness facility in Logan Square designed for dogs and cats of all sizes. Whether your pet is recovering from surgery, getting old, or just out of shape, Integrative Pet Care's compassionate and well-trained staff (all are either veterinarians or animal rehabilitation therapists) offer a number of treatment options: massage, chiropractic, herbal medicine, and low-level laser therapy, to name just a few.
